MULTI-SCENARIO: HOME, KITCHEN & OFFICE

DIRECT WATER SUPPLY, WATER UNLIMITED DISPENSE

Countertop POU with internal water tank design, frees you from busy refilling water and frees you from long waiting time for the filtered water. Perfect choice for multi-users scenario!

Compact Design

All-matching Look

MULTI-USAGE: DRINKING & COOKING

MULTI-TEMP WATER SUPPLY, EASIER FOR CREATION OF BITE & SUP

At your reach on the kitchen countertop, not only it helps you DIY your drinks conveniently with different temperatures water but also it provides clean water to cook with. Better water quality inspires better taste and hot water makes cooking faster and efficient.

Cold, Ambient
& Hot Water

Xtreme Temp
(3-to-97°C)

COLD, AMBIENT & HOT WATER WITH TEMPERATURE CUSTOMIZATION, GET EXTREME CLOSE TO YOUR COZY TEMP

There are 6-temperature setting for cold, ambient & hot, easily customizing the temperature as you need, dispense your cozy drink.

* Without Extreme Cold Technology, cold temperature setting is 5°C / 9°C / 12°C

XtremeTemp

A PRESS TO INSTANT HEATING TO EXTREME HOT

Drinks and food need extreme hot temperature to stimulate the best aroma and taste. Now no need another heating kettle, just with a press, the water is on-demand heated to 97°C instantly. That is secret to unlock the best taste of delicacy.

97°C Extra Hot Water

XtremeTemp

COLD WATER CYCLING, CIRCULATING & COOLING EVENLY TO EXTREME COLD

Cooling the water while water circulating, helps cool down fast and evenly, provides lowest temperature to 3°C. The freezing cold water refreshes your cup of drinks.

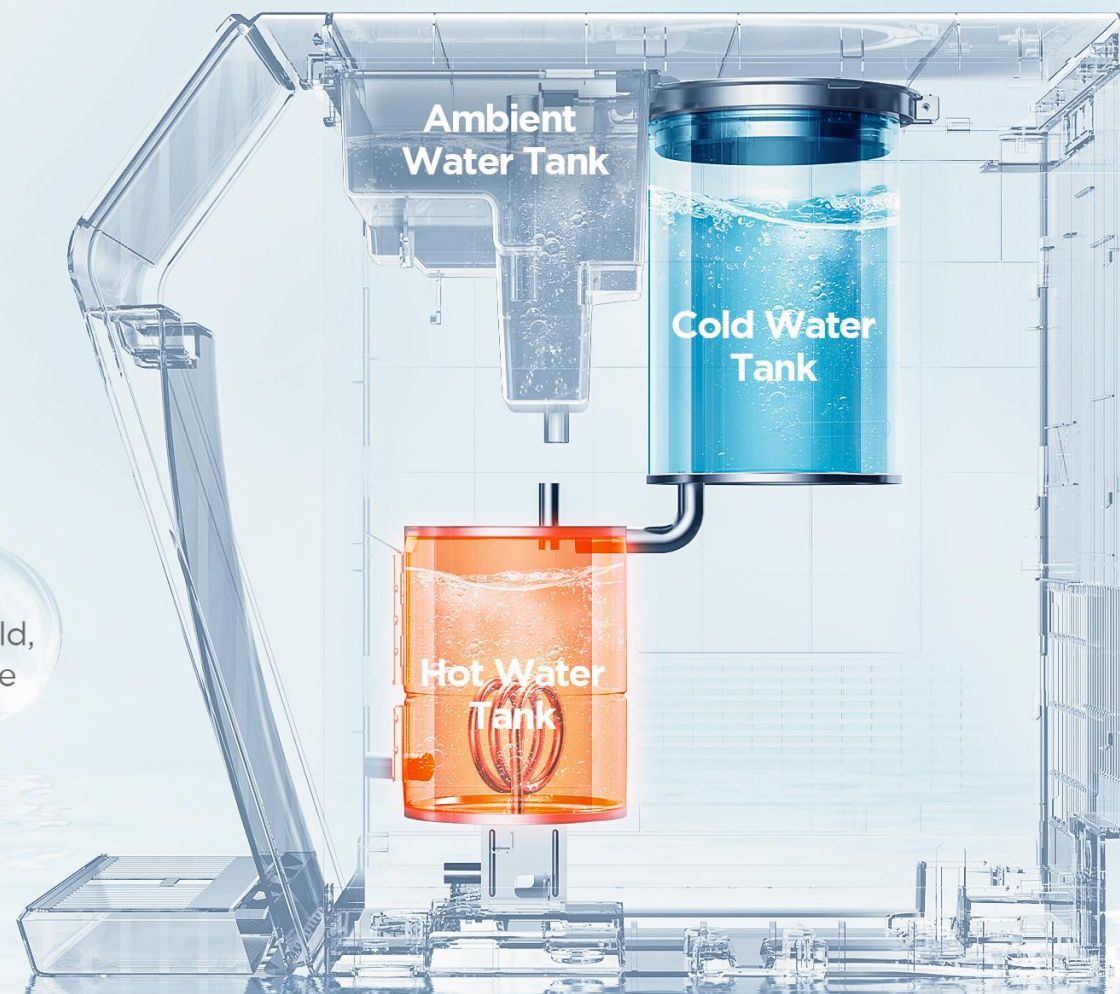

3°C Extra Cold Water

HEAT INSULATION DESIGN, EXTREME TEMP PROTECTION PREVENTING TEMPERATURE CROSS & HEAT LOSS

No worry of water not cold or hot enough. Independent water tank for cold, ambient & hot water avoid temperature cross and reduce heat loss to save more energy from heating and cooling.

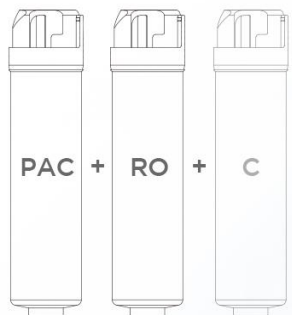

FILTERING EVERY DROP, HEALTHIER FOR EVERY CUP OF WATER

The water filtration system filters the impurity in water and polishes the taste of the water, making the taste of water better than ever and helping to protect your health.

Optional Filtration System:

Reverse osmosis filtration

(Optional)

Ultra-filtration

(Optional)

Carbon-filtration

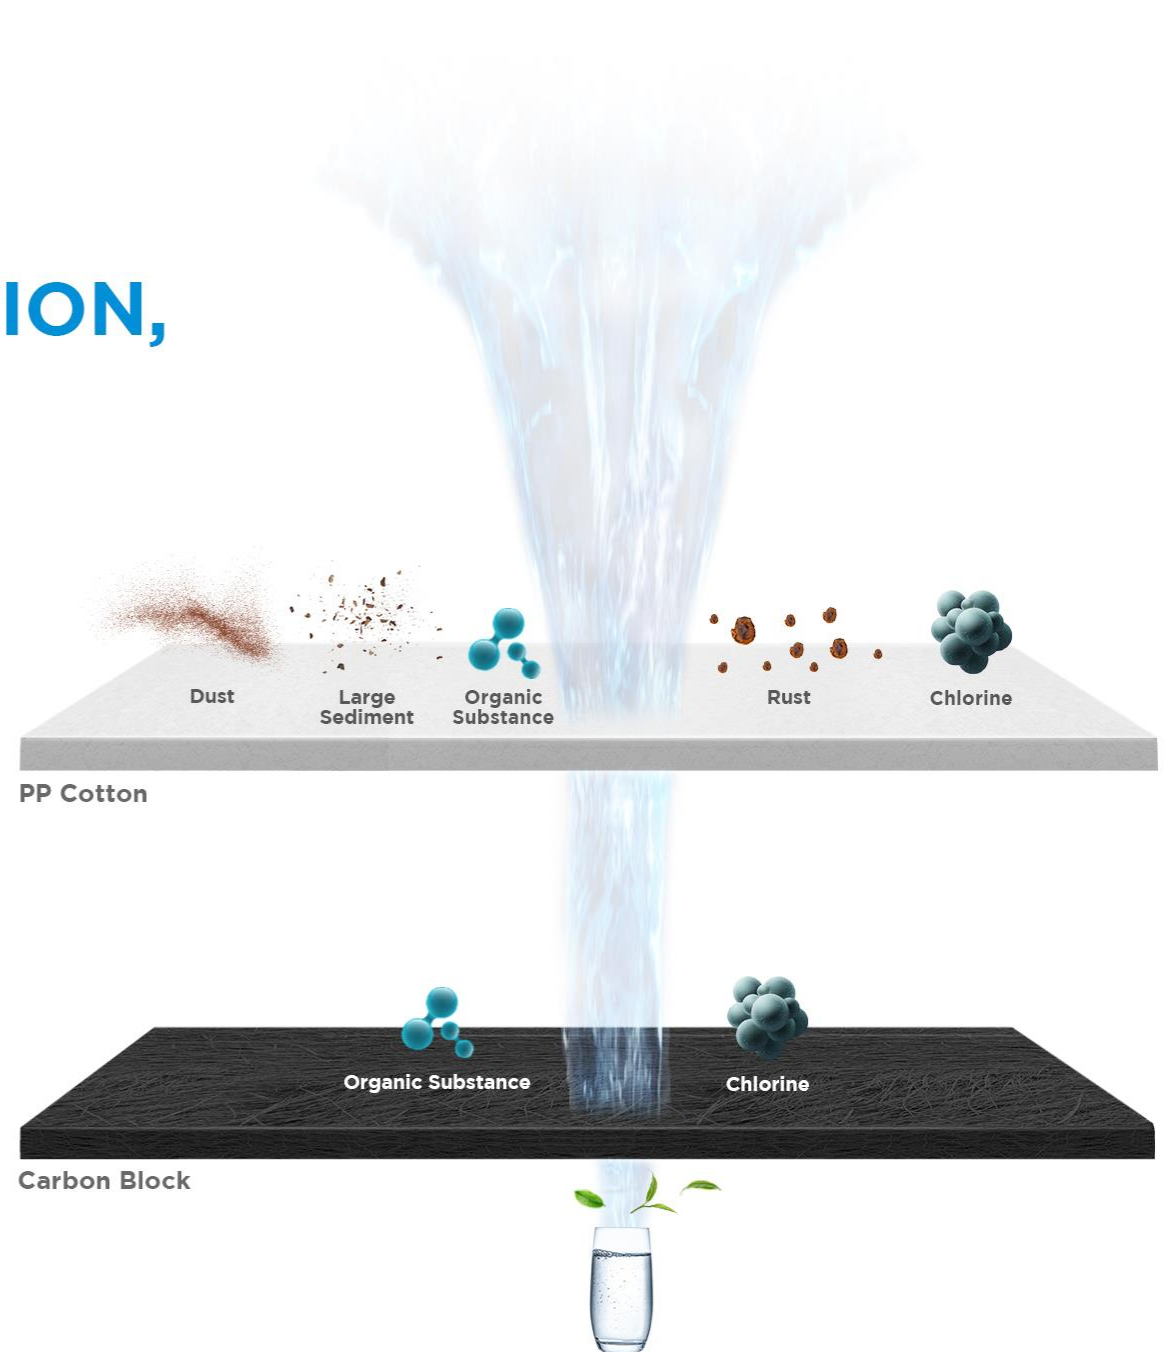

Optional Filtration

SEDIMENT & CARBON FILTRATION, CLEANER & TASTIER DRINKING WATER

Effectively filter the dust, sediment and impurities to purify the municipal water. The active carbon, made by coconut shell sourcing from nature, performs better in absorbing unusual odor and taste and chlorine so that to better polish the taste of water.

Coconut Shell Active Carbon

Optional Filtration

4-STAGE RO HIGH PRECISION FILTRATION, PURITY IS ASSURED!

The filtration system removes heavy metals, viruses, bacteria, chlorines, large particles and dissolved solids from tap water, and improves the taste.

Reduce TDS*

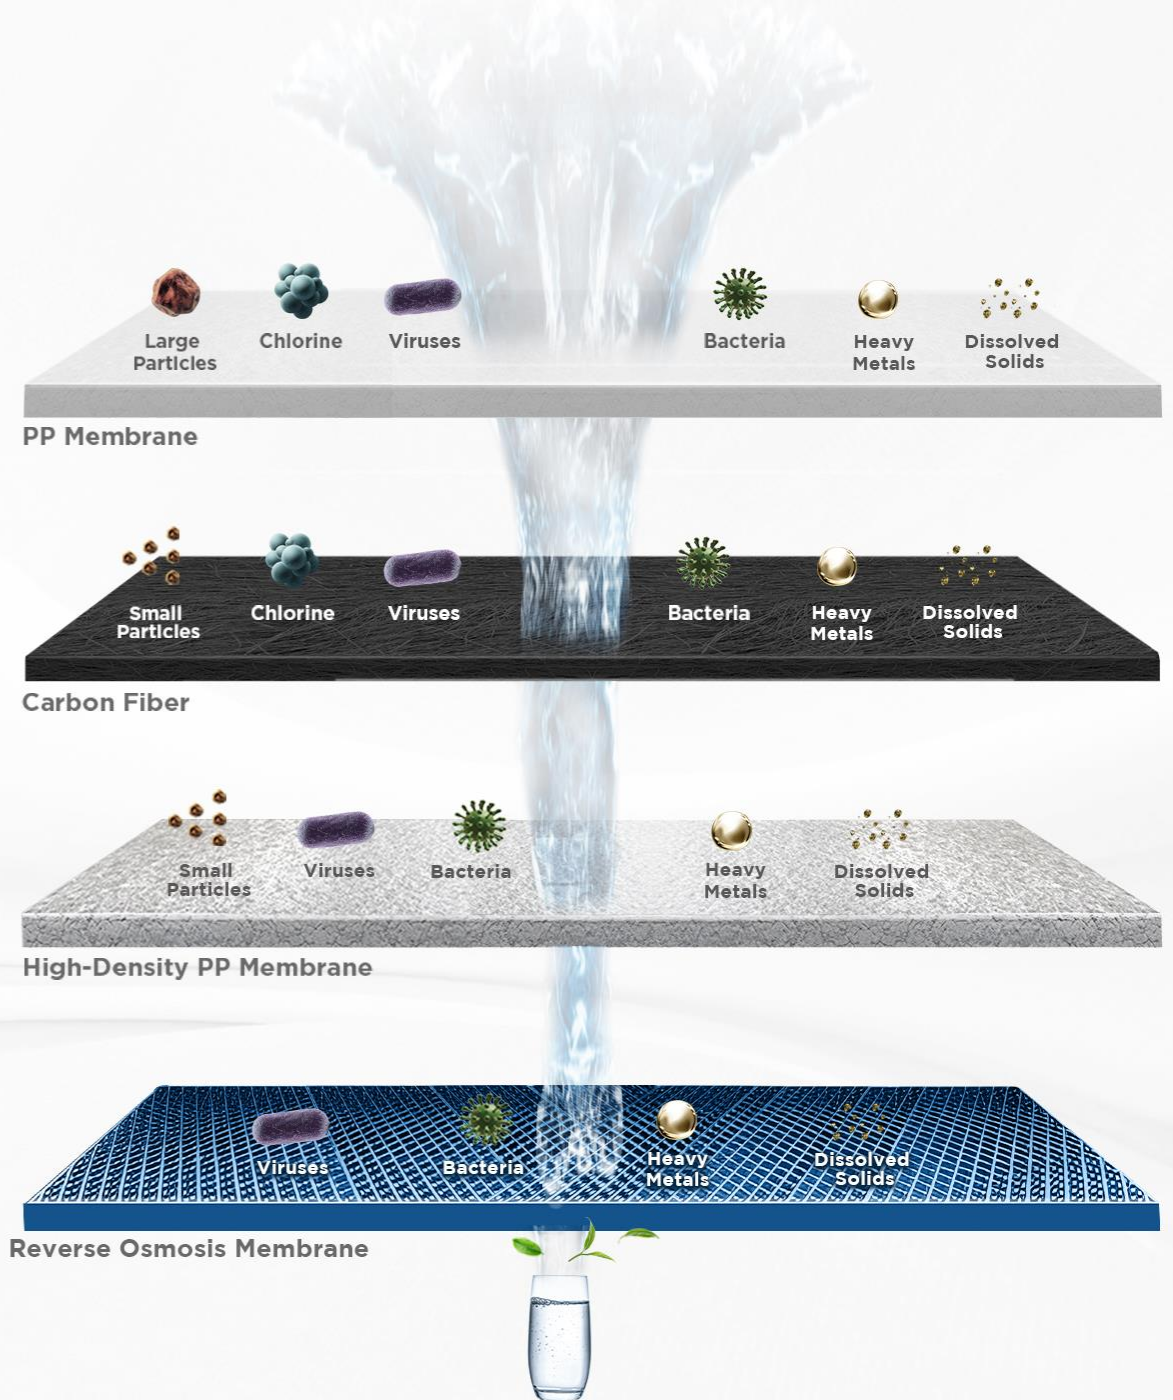

Reverse Osmosis Filtration System

Up to 0.0001μm Filtration Precision

*Total Dissolved Solids

Optional Filtration

4-STAGE UF FILTRATION, CLEANER WATER TO DRINK!

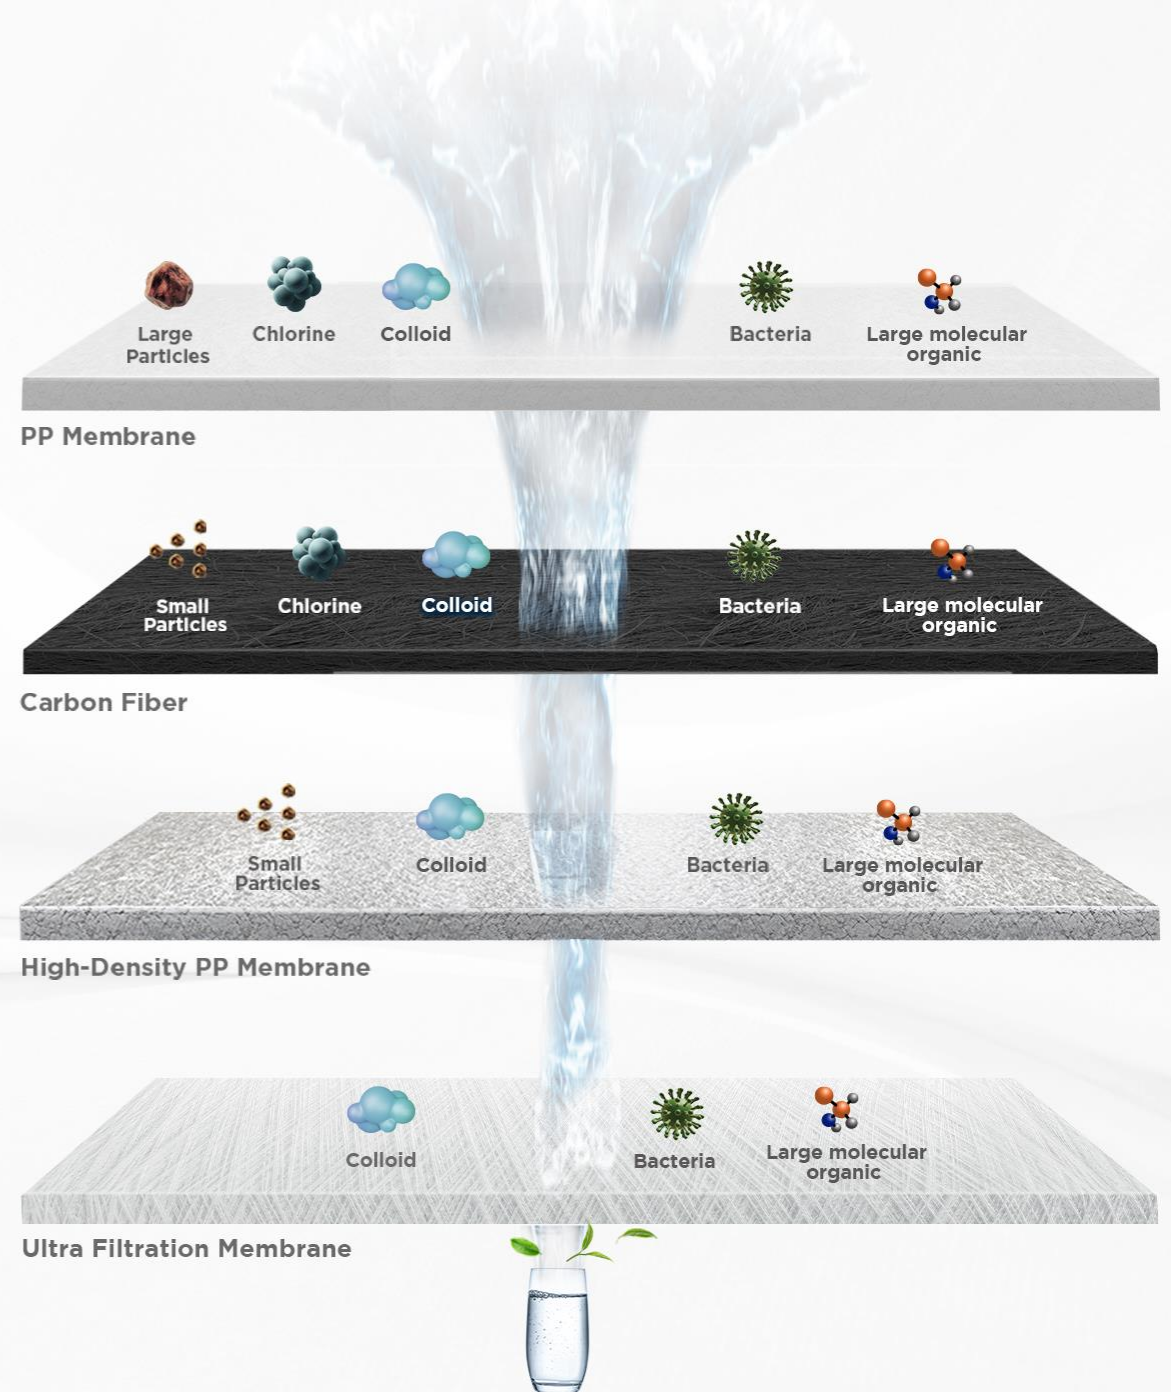

Remove contaminants including bacteria, colloid, large molecular organic, particles, dust and chlorine in water, while retaining the mineral elements. The filtered water is naturally healthy and safe to drink.

Ultra Filtration System

Up to 0.001 μ m Filtration

UV Sterilization

CARE FREE & 99.99%
BACTERIA FREE*

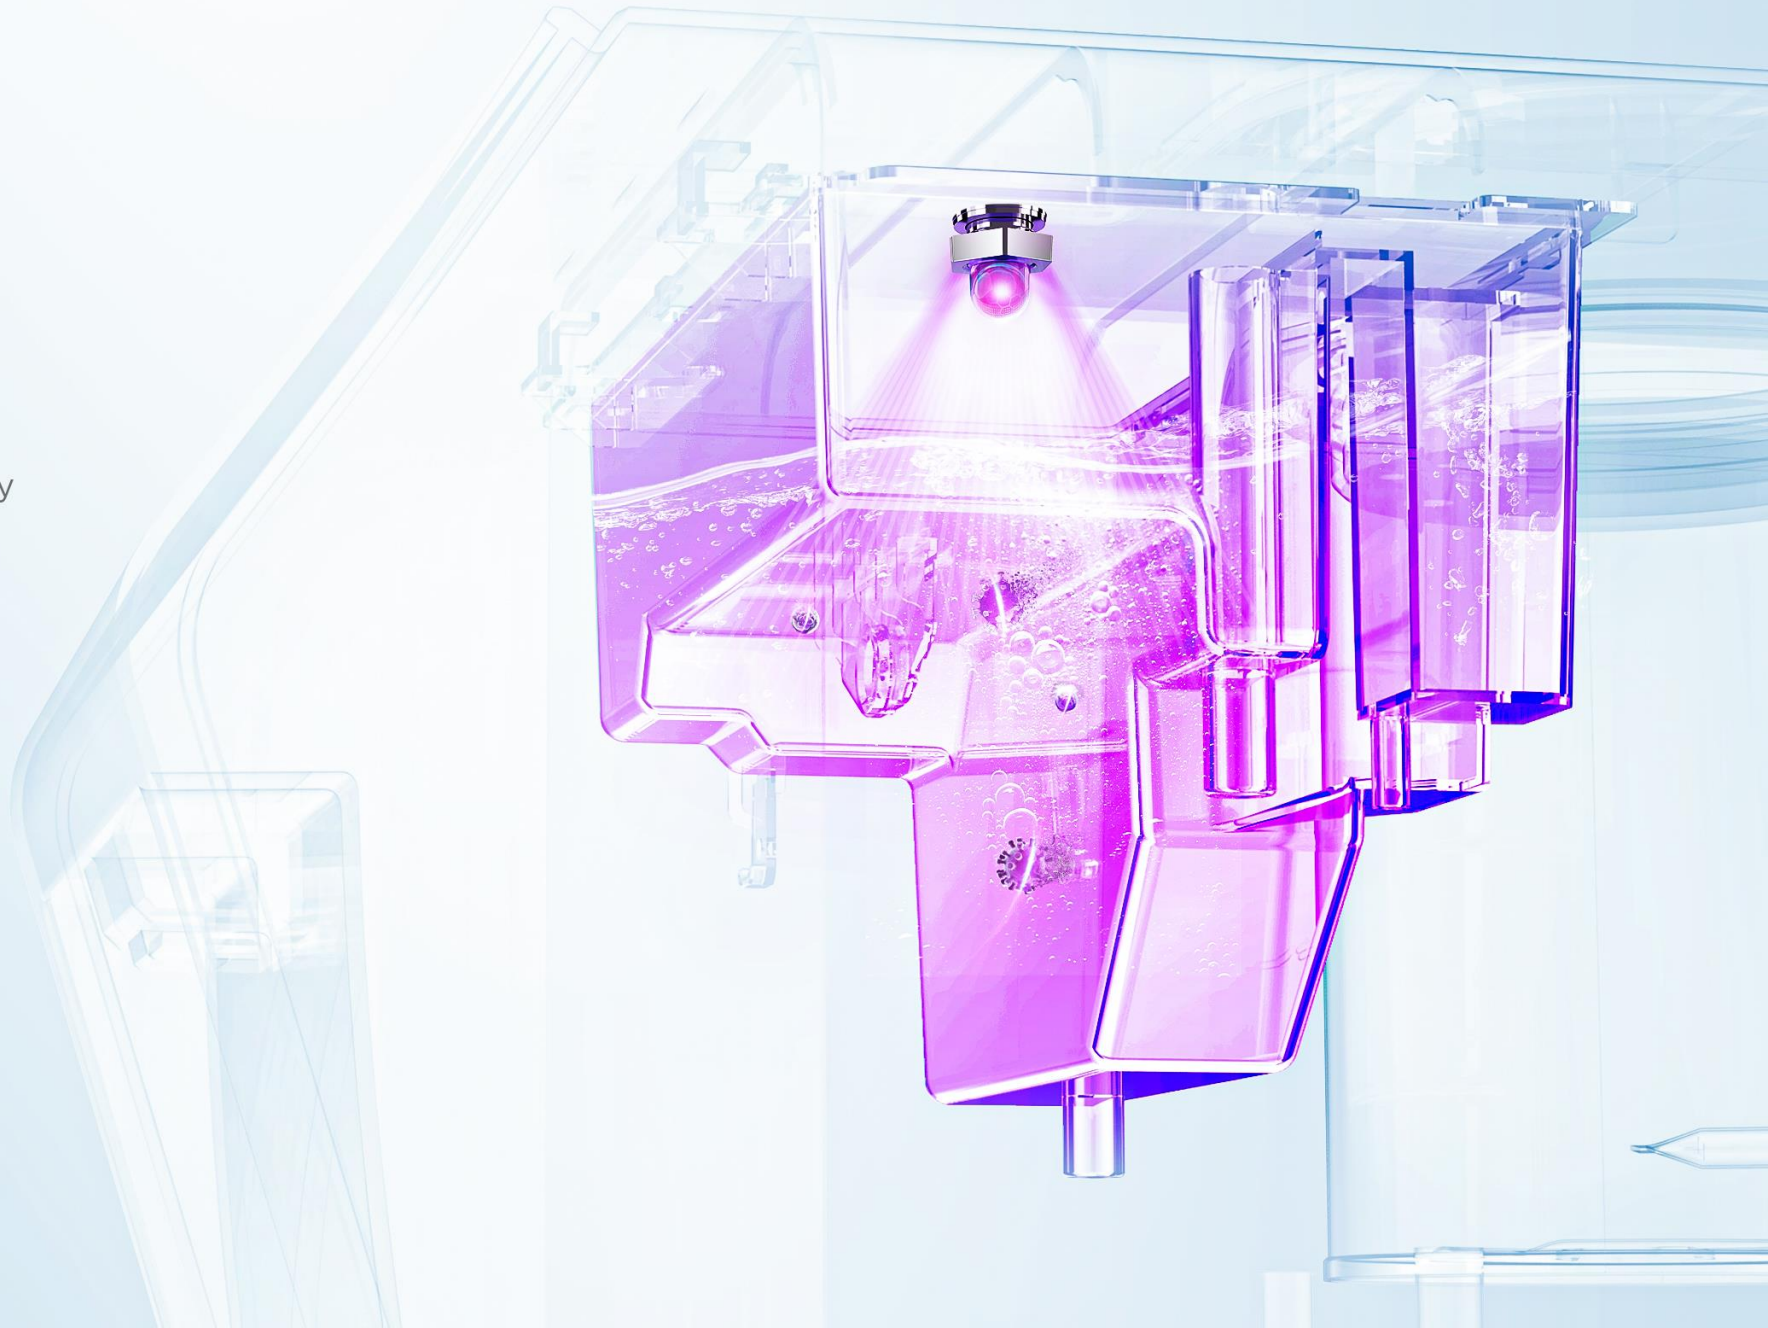

UV light installed in water tank, consistently inhibits bacteria growth and protects the drinking water from the pollutants.

10000 hour UV
Light Lifespan

Auto-Sterilization

DISPENSE VOLUME SETTING & UNHOLD YOUR ATTENTION

With the pre-set dispensing volume, you can release your attention while dispensing. A press and it is all ready for you!

Self-clean High-temp Rinse

A PRESS TO CLEANOUT ALL THE WATER WAY, HYGIENIC INTERNAL ENVIRONMENT PROMISED

75°C hot water rinse all the water way to sterilize, flushing away the impurity, bacteria and the unusual odor. Complicated work but it is easy to start with just a press at home.

Self-Sterilization

DETAILED CONSIDERATION, COMFORTABLE DISPENSING

Small consideration for a comfortable dispensing experience.

**Child Safety
Lock**

Avoid child accidental hot-water dispense

**Hygiene Touchless
Control**

Wave your hand to dispense cold and ambient water. Less opportunity to pick up germs.

Temperature Dispensing Light

Orange light for hot temperature
Blue light for cold & ambient temperature

ECO MODE, ENERGY SAVING IN HASSLE-FREE WAY

When detected dark environment the heating will be turned off automatically to save more energy. Living green in simple way.

Smart Green function

PRODUCT SPECIFICATION

Model	JL2345T
Rated Voltage	115V / 220-240V
Rated Power	700W
Purification Capacity (L/h)	9~11L/h (75GPD)
Water Leakage Protection	Y
Water Output (Pure water)	1.2L/min
Frequency (V/Hz)	60Hz
Filter style & life time	PAC & Carbon (6 months) / RO & UF (12 months)
Applicable Water Pressure	0.1~0.4 Mpa
PH value	/
Applicable Environment	4 ~ 38℃
Feed Water Temperature	4 ~ 38℃
Product Dimension	445*260*433mm
Package Dimension	540*325*525mm
Loading quantity (20GP/40GP/40HQ)	296/616/768
